Letters for Creation

Letters for Creation is a project that can be done from home and offers an opportunity to creatively channel concern for others and the world around us. Letters for Creation invites children and young people under 30 to write letters reflecting on what caring for creation means to them and how they want their voice to be heard in the climate justice conversation. 'Letters' don't have to be physical letters: videos, photographs, poems, songs, posters and so on are all welcome, and the 'letter' doesn't have to be addressed to anyone in particular.
